# Future Schools Information Guide For Parents *2022-2023*

Choosing the right senior school for your son

# Introduction

Welcome to the 2022/2023 edition of the Durston House Future Schools Information Guide for Parents. This document is updated annually in time for the Year 4, 5 and New Parents Future Schools Meeting.

Giles Entwisle,  
Headmaster

We are here to help and to provide advice and support in choosing the right senior school for your son and in helping navigate the admissions process for your son's next school. To help in this process, please do keep us informed of the schools for which you have registered or from which you have withdrawn; and let us know dates of school interviews so that we can plan interview practice in preparation for the event. It is worth noting also that registering your child for senior school is the responsibility of the parent rather than the Prep School. The reason being that payment of a registration fee to the senior school is involved.

Mrs Ferns, my PA and Registrar, keeps our Future Schools spreadsheets up to date, and this greatly assists in managing the process. Miss Chisholm (Head of Studies Administration) is also on hand to help with the admission process, and to provide further advice and guidance. We meet regularly to review our future schools information, and I am readily available to meet with you to discuss options and progress.

Selecting a senior school and managing the application process varies between schools and the age at which you are looking for entry. By working together in managing the application process, we can work towards ensuring that the right choices are made and that the preparation and process have been thorough.

This guide we hope will provide a useful reference for you to the many senior schools that you may be considering for your son, including website information, admissions contacts, deadlines for registration and open visit events information (most often via Zoom at the moment).
